

Reichert

Compact, Powerful, Dependable, Accurate

The Reichert Clinic-Chek is a multi-scale clinical refractometer ideally suited for the medical clinic, laboratory, and for athletic/wrestling hydration measurement. Three measurement scales in one model allows more flexibility and cost savings to you. The Clinic-Chek is more accurate than hydrometers and test strips.

Measures:

- Urine Specific Gravity (USG) from 1.000 to 1.040
- Serum Protein Concentration 1.6 to 15.0g/100mL
- Refractive Index from 1.3330 to 1.4465

Clinic-Chek raises the bar for performance and value.

The Clinic-Chek is easy to operate and provides quick results. Its LCD digital display is easy to read and removes the subjectivity of shadow line interpretation across a small scale used in conventional handheld refractometers. Reading errors are eliminated with this easy-to-use clinical refractometer.

Measure body fluids (Urine and Blood Serum) without placing the sample near your face as required with other optical manual models. This measurement is safer and more convenient.

Reichert • • • • • Technical Specifications	
Catalog Number	13940021
USG Range/Accuracy	1.000 to 1.040/0.005
Serum Protein Range/Accuracy	1.6 to 15.0/0.1
Refractive Index Range/Accuracy	1.3330 to 1.4465 / 0.0002
Calibration	Water
Prism Material	Glass
Dimensions (WxDxL)	2.1 x 1.1 x 3.9 inches (54 x 27 x 100 mm)
Weight	3.5 ounces (100 grams)
Power	10,000 measurements/2xAAA
Warranty	1 Year
Ratings & Compliance	IP65 Dustproof/Water Resistant, CE, RoHS, WEEE compliant

Save Money, Time, and Increase Productivity!

- Clinic-Chek features a 5-digit, full view LCD screen that displays all pertinent measurement data in one view. This feature reduces the costs associated with reading errors and eliminates scrolling values. Since the instrument is programmed with multiple measurement scales, only one unit is needed.
- Clinic-Chek has an affordable cost of ownership. You can read over 10,000 measurements on the two AAA batteries, which are included. The instrument also has an automatic shutdown feature that preserves battery life.
