

CARDIOVIT AT-101

High-tech 3-channel ECG

SCHILLER
The Art of Diagnostics

CARDIOVIT AT-101

- ❖ 3-channel display from 12 selected leads
- ❖ Direct network connectivity via XML output
- ❖ Data transmission to SCHILLER's data management system SEMA possible

FEATURES

- ❖ Intuitive and easy operation by means of direct function keys
- ❖ 12-channel resting ECG including standard ECG measurement
- ❖ Integrated graphic 3-channel LCD
- ❖ Alphanumeric keyboard
- ❖ Measured values
- ❖ Integrated high-resolution thermal printer
- ❖ User-programmable printing formats for the internal printer

SOFTWARE OPTIONS

- ❖ Memory and data transmission to a PC or information system
- ❖ Interpretation software with thrombolysis

OPTIONAL XML DATA TRANSMISSION

(memory option required)

- ❖ For the AT-101, an internal SCHILLER Communications module (SCM) is available to transmit resting ECG data in the XML format to a PC or information system
- ❖ AT-101 connectivity to a larger system solution
- ❖ Traceability of data, i.e. serial number and identification of the device that transmitted the data, as well as transmission date and time
- ❖ Safe transmission of patient data via Internet with 1024 bit encryption
- ❖ Additional transmission of XML data to the SEMA data management system possible
